For breeding of the "Mare" known as _____ to the Frozen Semen from the stallion "Good as Gold". It is understood that Buyer acknowledges that only foals born in 2011 and 2012 are guaranteed to be registerable with the Oldenburg NA, although if properly stored, the semen will last almost indefinitely. For other registry options such as ISR and RPSI Studbook II, please inquire to the respective breed registries. This contract is subject to the following terms and conditions:

MARE:

Please complete thoroughly. The following is the information on the Mare to be bred (One Mare per contract only):

Mare's Name: _____

Registration Number: _____

Studbook/Registry of the Mare: _____
(i.e.: ISR/OLD, RPSI, KWPN etc)

Date of Mare's birth: ___/___/___ Color of Mare: _____ Dilute mare? Y or N (palomino, buckskin, smokey black, cremello, perlino, or smokey cream are dilute colors)

Studbook/Registry the foal will be registered:
Select One Oldenburg NA ISR RPSI Book II Other _____

Last Date Mare Foaled: ___/___/___ Last date bred: _____

Mare's Breeding History _____

**A copy of the mare's registration papers is due with this contract. We require a recent color photo and 5 generation pedigree of the mare. Please also provide us with her show, inspection, and/or produce record if requesting performance mare discounts.

Please choose an option below that best describes your mare by placing an X in front:

_____ **\$2,000.00 USD**** for one breeding to Good as Gold. 3 full doses (8 straws per dose) of frozen semen will be shipped. This semen is to be used on one GHF Pre-Approved **Non-dilute** mare of warmblood, thoroughbred, or Arabian descent (for 1 registerable OLD/ISR NA foal). Includes booking fee. *Sport Ponies and Arabian mares* will receive a \$500.00 discount if approved.

_____ **\$2,500.00 USD**** for one DILUTE or Double Dilute Warmblood, sporthorse or Thoroughbred mare. 3 full doses (8 straws per dose) of frozen semen will be shipped. This semen is to be used on one GHF Pre-Approved Dilute mare (for 1 registerable OLD/ISR NA foal). Includes booking fee.

_____ **\$1,750.00 USD**** *Premium Mare, elite, Ster, Elite, SPS Book or High Show Performance proven Pre- Approved Non-Dilute Mare*, (for 1 registerable OLD/ISR NA foal). 3 full doses (8 straws per dose) of frozen semen will be shipped. Includes booking fee. **Other discounts may apply for top quality proven performance or producing mares.

_____ **\$1,500.00 USD**** for one breeding to Good as Gold for one *GHF Pre- Approved non-dilute RPSI mare, non-sporthorse breed mare, unregistered Thoroughbred mare, or one unregistered mare (no Oldenburg NA/ISR registration possibilities for the resulting foal)*. 3 full doses (8 straws per dose) of frozen semen will be shipped. Includes booking fee. Depending on your mare's registration, the resulting foal *may be* eligible for one of the ISR or RPSI Studbooks. It is your responsibility to check with that registry to understand your registration options. Good as Gold is recorded in Studbook II with the RPSI. Includes booking fee. (Please contact us for the breeding prices for mares in other categories than above).

**** Multiple mare and repeat breeding discounts of 10% each may apply.** Please inquire.

We accept Checks, Cashier's/Bank checks, credit cards and Paypal. Checks must clear and all fees must be paid prior to any semen being shipped by Select Breeders. Fees may also be paid online through the website using Paypal. You may pay with Paypal at www.paypal.com. The Paypal Account to pay is: Roberteeford@aol.com

All inquiries about semen shipping services, dates, etc, as well as shipping arrangements are to be made with Select Breeders Services after the semen is paid for in full, the contract is signed and received by GHF, and the funds are cleared. The phone # for SBS is 410-658-3328 or 877-658-3328, (toll-free). E-mail is info@selectbreeders.com

For additional contact info <http://www.selectbreeders.com/contact.com>. Once your mare is safely (90 days) in foal, the rest of the Good as Gold semen must be returned to Goldhope Farm. (Unless previous arrangements have been made to pay another breeding fee for an additional

mare) or the same mare in another breeding season. Please contact us and we will send a container to pick up the semen at our expense.

Conditions: This contract covers each purchase of one Frozen Semen breeding to Good as Gold. Three full doses of frozen semen will be shipped for each paid breeding. Each dose will contain 8 straws. This amount is determined by SBS according to the international quality standard. The frozen semen has been tested and is EVA/CEM negative. Good as Gold has been vaccinated for EVA.

The Frozen Semen will be shipped in a Nitrogen "Vapor/Dry Shipper" at the Buyer's expense. SBS always has dry shippers available and will be able to ship same day if the request is received by 1 pm EST. The shipment should be planned at a minimum of 3 days prior to when you plan to breed your mare, so that we can do the paperwork and send it to SBS in order for them to release the semen to you. You may pick up your Good as Gold semen to save the shipping charges, but please inquire to SBS what the fee to transfer the semen to your tank will be. You should not wait until your mare is in heat to order or ship the semen. No Frozen Semen will be shipped until all fees are paid to GHF and SBS.

You will need to arrange for nitrogen storage for your semen when it arrives at your farm or your vet's clinic unless your veterinarian plans to breed your mare out of the dry shipper. Please have your veterinarian use the semen in the dry shipper within 2 weeks or transfer the semen from the Dry Shipper into a Liquid Nitrogen Storage Tank. Failure to use or transfer the semen within 14 days of receipt will void this contract and may have jeopardized the integrity and quality of the frozen semen. SBS requires that the tank be returned and delivered back to them within 10 business days. Goldhope Farm is not responsible for the frozen semen once it has been shipped by SBS. Once the Dry Shipper arrives, it should be checked promptly. The tank should be frosty when opening it. The Buyer or Buyer's agent must file a report of damaged shipment within 24 hours with FedEx or your insurance is not valid. It is the responsibility of the Buyer or Buyer's agent to file this report with FedEx.

The Frozen Semen should not be handled by anyone except a licensed Veterinarian with equine frozen semen breeding experience. Goldhope Farm is not responsible for Frozen Semen that has been mishandled. Please be sure that your Veterinarian of choice is qualified and able to breed your mare with frozen semen.

If you get your mare in foal with less than the 3 breeding doses shipped to you, and would like to use the abovementioned semen in the future, it is imperative that you fill out a new Frozen Semen contract and make arrangements with Goldhope Farm to pay a **reduced rate stud fee** for any additional foals from the same or other approved mare. This semen may not be sold/transferred/gifted or traded to anyone or used on any other or additional mare unless you arrange for reduced price breeding for the other mare(s). **The Good as Gold Semen may not be destroyed.** Please do not use more than 2 doses per heat cycle. Many veterinarians that perform deep horn insemination choose to use less than an entire dose per insemination.

Recommendations:

SBS recommends using the timed insemination protocol when breeding with frozen semen. A copy of the protocols, mare management suggestions, and thawing/handling instructions are included with each shipment as well as the transaction report for the frozen semen doses. Goldhope Farm recommends that you breed with the frozen semen within 4-6 hours post ovulation if at all possible. We suggest that your Veterinarian do a breeding soundness exam, culture and biopsy on your mare before you decide to breed your mare and to ensure that the mare is clean and is in good

condition for breeding. It is critical that once your mare is in foal that she receives a Pregnant Mare Rhinopneumonitis shot at 5,7 and 9 months of pregnancy. (These shots are required for this contract to be valid).

This semen is to be used for one live foal out of the mare listed on this contract only, and no other foals conceived with this semen will be permitted or registerable in any registry without a separate contract and fee paid to GHF.

Shipping Fee:

SBS Distributes frozen semen at a flat rate. A domestic weekday delivery is \$280 within the USA; Saturday deliver is an additional \$15. SBS insures each frozen shipment for \$800, which is the cost to replace a tank should major damage occur. *There is a \$75 rush fee for same day orders received after 1:00 pm EST and they will do their best to get those out but it is not guaranteed.* This fee is payable using a credit card. The phone # for SBS is 877-658-3328. SBS will usually ship the same or next day as long as your paperwork is in order with Goldhope Farm and SBS. Please contact SBS for costs of exporting semen if you are not located within the US. ***We have semen frozen for export to the EU available at a discount. Please inquire.***

ASSIGNMENT:

This Contract may not be transferred, sold, traded, transferred or used by a person other than Buyer nor any another or additional mare without prior consent of GHF.

Law:

The laws of the State of Pennsylvania shall govern the terms of this Agreement.

Breach:

Either party may nullify this Agreement if the other party breaches a material term of this Agreement. The wronged party may recover reasonable attorney's fees and court costs which will not exceed the price of the semen purchased.

This contract is 4 pages in length and is received by both parties.

Executed this _____ / _____ / _____ day/month/year. *****Please initial the bottom right corner of each and every page.***
